Demanded One Thousand Dollars from a Prom- nent Banker.

Banker Placed a Bag of Slugs in Place Designated by Writer of a Threatening Letter and Caught Him.

Bonner Springs, Kan., Feb. 28.—E. D. Bearden, a respected citizen, is under arrest here for connection with a, attempt to force \$1,000 from Frank Warner, cashier and principal owner of the bank at this place, by threaten- ing death to Warner and family, or the kidnapping of his child. Bearden was arrested, it is alleged, while making off with a bag of slugs supposed to contain money, and which was left at a spot designated in a threatening letter received by the banker.

Warner had received a letter head- ed, "Silence or death!" and dated Kansas City, Feb. 23. It recited that the writer, who was a member of a gang of five men, intended to kidnap the banker's son, and hold him for ransom, unless he placed \$1,000 in gold in a sack and placed it under the steps leading to the Odd Fellows' hall, a short distance from the business part of town. The letter threatened the Warner family with destruction should Warner fail to comply.

Mr. Warner filled the bag with slugs and deposited it as directed. David Wood, a friend, concealing himself nearby. The steps led up to the lodge rooms of the Odd Fellows' lodge, of which Bearden was a member. It was the night of the regular lodge meet- ing, and when it had concluded Bearden was the last man to leave the building. Bearden, according to Wood, drew out the bag and started away, when Wood ordered him to halt. Bearden, it is said, threw the heavy bag at Wood and ran. He was taken in charge by Deputy Sheriff Whitford.

Denunciation of the Administration by the Georgia Senator,

The Sensation of the Day.

Declared That the Army Bill Amendments Were Enacted for the Benefit of Plunderers and Vultures in the Philippine Islands.

Washington, Feb. 28.—The senate passed the army appropriation bill, containing the propositions of the Re- publican majority for the temporary government of the Philippines, and for the future relations between the United States and Cuba. Many amend- ments were offered to both proposi- tions, but were voted down. The original Spooner amendment was amended regarding franchises, as pro- posed by Mr. H. Bar. The Philippine and Cuban amendments were adopted by practically a party vote.

The Philippine amendment is as follows: "All military, civil and judi- cial powers necessary to govern the Philippine Islands shall, until other- wise provided by congress, be vested in such manner as the president of the United States shall direct, for the es- tablishment of civil government and for maintaining the inhabitants of said islands in the free enjoyment of their liberty, property and religion. Provided, that all franchises granted under the authority hereof shall con- tain a reservation of the right to alter, amend or repeal the same; and that no sale or lease or other disposition of the public lands shall be made not ap- proved by the president."

Not since the enactment of the reso- lutions declaring a state of war to ex- ist between the United States and Spain has there been such an ava- lanche of passionate oratory as the senate listened to. The army appro- priation bill was under discussion, the controverted questions being the Spooner Philippine amendment and the Platt Cuban amendment. Cur- iously enough the debate was confined entirely to the Democratic side of the chamber, with one exception. Both amendments were denounced as vi- cious and pernicious legislation, sub- versive of the principles of this gov- ernment, and unparalleled in the history of legislative enactments.

The most notable speech of the day was delivered by Mr. Bacon (Ga.). He had been thoroughly aroused by re- ports that the Democratic members had been induced by questionable means to withdraw their opposition to the proposed legislation, and he pas- sionately branded as a libel upon hon- orable men and senators any and all such statements. Personally, he de- clared, he would defeat the amend- ments if he could, although he real- ized the majority would have to ac- cept the responsibility for them. His arraignment of the administration for "coercing" congress into enacting such provisions in the closing hours of the session was sensationally fierce, and he declared that the only possible object of such action, was that the "plunderers and vultures" might have an opportunity to prey upon the pro- strate land of the Philippines.

For Mrs. Carrie Nation is Extended

By Resolution in a New York W. C. T. U. Meeting.

Some of the Members However, Took Occasion to Denounce Carrie's Hatchet Capers as Being Fanatical.

New York, Feb. 28.—Mrs. Carrie Na- tion's actions led to a most vehement discussion at the mid-winter conven- tion of the New York county Woman's Christian Temperance union. A paper entitled "Church Events," by Mrs. Mansfield, precipitated the discussion. Mrs. Mansfield upheld what "the prairie idiot" of Mrs. Nation had prompted her to do. Speeches from the opponents of what was termed "the barbarous and fanatical destruction of property" by the Kansas reformer fol- lowed. However, a resolution of sym- pathy was adopted.

WALKED INTO A TRAP.

Riley, Kan., Feb. 28.—A gang of sup- posed bank robbers walked into a carefully laid trap here, and the leader, Frank Wharton, alleged to be an expert safe blower, was captured after a desperate fight in the dark. The vault, containing \$100,000, was untouched. Some time ago Wharton came to this vicinity, and it is alleged planned with some local characters to rob the Riley bank. One of the men, named Johnson, became fright- ened and notified the officers. Sheriff D. D. Finney induced the fellow to go ahead with his part of the program. The sheriff and two detectives se- creted themselves in the bank build- ing. Soon four men appeared and a desperate struggle ensued. The rob- bers fought hard, falling the two de- puties with crowbars. Wharton, how- ever, was captured. The others escaped.

Declared That the Army Bill Amendments Were Enacted for the Benefit of Plunderers and Vultures in the Philippine Islands.

Washington, Feb. 28.—The senate passed the army appropriation bill, containing the propositions of the Re- publican majority for the temporary government of the Philippines, and for the future relations between the United States and Cuba. Many amend- ments were offered to both proposi- tions, but were voted down. The original Spooner amendment was amended regarding franchises, as pro- posed by Mr. H. Bar. The Philippine and Cuban amendments were adopted by practically a party vote.

The Philippine amendment is as follows: "All military, civil and judi- cial powers necessary to govern the Philippine Islands shall, until other- wise provided by congress, be vested in such manner as the president of the United States shall direct, for the es- tablishment of civil government and for maintaining the inhabitants of said islands in the free enjoyment of their liberty, property and religion. Provided, that all franchises granted under the authority hereof shall con- tain a reservation of the right to alter, amend or repeal the same; and that no sale or lease or other disposition of the public lands shall be made not ap- proved by the president."

Not since the enactment of the reso- lutions declaring a state of war to ex- ist between the United States and Spain has there been such an ava- lanche of passionate oratory as the senate listened to. The army appro- priation bill was under discussion, the controverted questions being the Spooner Philippine amendment and the Platt Cuban amendment. Cur- iously enough the debate was confined entirely to the Democratic side of the chamber, with one exception. Both amendments were denounced as vi- cious and pernicious legislation, sub- versive of the principles of this gov- ernment, and unparalleled in the history of legislative enactments.

The most notable speech of the day was delivered by Mr. Bacon (Ga.). He had been thoroughly aroused by re- ports that the Democratic members had been induced by questionable means to withdraw their opposition to the proposed legislation, and he pas- sionately branded as a libel upon hon- orable men and senators any and all such statements. Personally, he de- clared, he would defeat the amend- ments if he could, although he real- ized the majority would have to ac- cept the responsibility for them. His arraignment of the administration for "coercing" congress into enacting such provisions in the closing hours of the session was sensationally fierce, and he declared that the only possible object of such action, was that the "plunderers and vultures" might have an opportunity to prey upon the pro- strate land of the Philippines.

LIMA

Party is Having a Gay Time

In the Land

Of Fruits and Flowers on the Pacific.

They Buy Oranges by the Bushel But Pay Tour- ists Prices for Pie.

"One of the Party" Writes an In- teresting Letter and Speaks in Particular of Simoa Spel- lacy's Gallantry.

Los Angeles, Cal., Feb. 18, 1901.
Editor Times-Democrat.

Dear sir—The Lima papers are re-
ceived and landed around the little
colony of Limaites here daily, there
being about thirty of us in and near
Los Angeles, and it is very easy to get
up a party to go on any side trip.

While we enjoy the news from home,
perhaps those from home might not
object to knowing what we do here.
For four weeks we have had much
rain and cool weather for this section,
and while it rained in the valleys
until the floods and washouts were
the talk and tourists who were not
patient were grumbling, yet the
Californians were in great glee, as
they needed the rain so badly. The
river beds were a dry and water for
irrigation scarce.

On Friday, February 1st, it hailed
and snowed a trifle in this city and it
was such a novelty that schools were
dismissed that the little folks might
see it, and in some parts of the city
enough fell that one boy scraped up a
panful and it was taken to the
Herald office, photographed and an
article written about the "beautiful
snow." On the mountains, however,
it has fallen to a great depth and since
it cleared up on Sunday, the 8th,
hundreds who had not seen snow ex-
cept on the distant inaccessible mount-
ain tops have taken the trip up Mount
Lowe to a point 6000 feet above the
valley, and snow-balled each other to
their pleasure and misery, the snow
there being two feet deep. It seems
like a fairy tale to pick ripe oranges,
lemons and flowers, and especially
the wild poppy at the foot-hills, and
get aboard the electric car and in one
hour and a half be on the top of the
mountain in deep snow.

One of the delightful trips is over
the kite shaped track, as the Santa
Fe line calls it. It is really more like
the figure 8 with San Bernardino at
the point of intersection. We go out
by the northern route, crossing the
line and taking the southern side, and
then swinging round, come back
through San Bernardino again and
over the southern route to Los Angeles,
the trip comprising 160 miles.

On Wednesday, Feb. 14th, a party
of twelve, composed of Mr. and Mrs.
Peter Spellacy, Simon Spellacy, John
Spellacy, Sr., of St. Mary's; Thomas
Duffield, Miss Rose Collins, Mrs. J. A.
Hall, Mrs. W. W. Strayer, Henry C.
Adgate, Dick Adgate, Mr. and Mrs.
A. E. Clutter, and D. K. McPherson,
of Sprague, Washington, made up a
party of thirteen in all, but we just
called it twelve so no one would ring
in the thirteen racket and be nervous
over the trip. The weather was as
warm as our most delightful May
mornings at home and all were in for
a good time. Our first stop was at
Pasadena and those who were fa-
miliar with the millionaire town were
busy pointing out places of interest
to the late comers. Leaving Pasadena
we drew closer to the mountains
and passed through the famous
"Lucky Baldwin" ranch, and skirting
the foot of Mount Lowe, from which
point an excellent view of the Incline
railway and its "white chariot" could
be obtained, and also the Chalet Ob-
servatory and the search light used
on the manufacturers building at the
World's Fair, all being situated on
Echo mountain at the top of the in-
cline. In only a few orange groves
was the ground dry enough to com-
mence picking and we never could
have seen them in nicer form; the
late Washington naves not being over
one-tenth picked and the seedlings
scarcely touched, so as we passed
hundreds of ranches they were all in
their prime, the yellow grape fruit,
lemons and oranges, with the dark
green foliage making a beautiful con-
trast. At each town we passed the
packing houses were in full blast,
packing and loading cars. At three
or four points the frost had done
damage, and the frosted fruit and
small culls, most of which were in

good condition but which would not
bear transportation, we could see
near the houses where many wagon
loads had been hauled out to rot,
there being no market for them. Tom
Duffield said, "If these were dumped
at Lima wouldn't the little chaps
there make a rush for them." All is
not a paradise, however; we passed
many miles of "Mesa," as they call
it, stony worthless land. Here and
there some fellows had cleared off a
few acres and were trying to rear an
orchard. Arrived at San Bernardino
one hour late, the train being a
heavy one, ten coaches and 450 people,
it being about lunch time some rushed
into the lunch room, but found
limited stock and nearly fainted when
apples were selling at forty cents a
pound—tourists' prices. The next
stop of any importance was at Red-
lands. Here we were to stop for three
hours for luncheon and a twelve mile
drive. The gentlemen of our party
being in the smoker, we saw as we
approached the depot a large number
of tally ho's and tourist's wagons
of three or four seats. We were out
in a hurry and engaged one of the
largest tally ho's, and here our fun
began. It would hold fourteen people
and the driver. Simon Spellacy,
who is politeness polished to perfec-
tion, was on the seat with the driver
and the balance of the seats were all
full, three in each seat. Everybody
was rushing to be sure of a rig when
two young ladies came up anxious for
a seat. Simon jumped down nimbly
and "boosted" them up by the side of
the driver, and then looked back, saw
the coach was loaded and he was left.
After a good laugh at his expense we
entered a protest against our party
being divided, and the driver seeing
an extra dollar in prospect, stood up
on the foot-board, and the young ladies
(who, by the way, were Hoosier girls
from Marion, Ind.) made room for
Simon and away we went. The four
magnificent horses soon brought us
near the front of a large line of rigs
and then we moved leisurely out past
the most beautiful residences along
the finest street, which extends out
for five miles and is curbed and gut-
tered, and inside the gutters two
rows of palms which extend the entire
distance to Canon Creek Park, or
Smiley Heights. Along this drive are
some of the finest orange groves to
be seen anywhere. The country is
new and only the best varieties are
grown, and all the trees are a very
dark green and from six to twelve feet
high, and such clusters of golden
fruit cannot be described. Arriving
at the Park, which comprises 200
acres along the crest of hills and is
said, so far as landscape and outdoor
work is concerned, to be the most
handsome private grounds in Califor-
nia, as you go up, you circle
around a beautiful drive, nicely curbed
and guttered, on one side all the
varieties of beautiful trees, native and
imported, and on the other enough
trees for shade with plenty of room
to see down the steep hill sides several
hundred feet below into San Timoteo
Canon and beyond to the smooth
green hills, with the farms, stock, and
railway, villages and school houses in
the narrow valley. At many points
the road is held up by a retaining wall
of great height. At other points
where there is more room, small rustic
booths with palm leaf roofs are
constructed with seats in them where
parties can stop and rest and enjoy
the magnificent view.

Winding around on the top of this
hill with sharp turns and up inclines,
with flowers and shrubbery, lakes and
water falls in profusion, we stopped
to let the horses rest a bit, and were
told that this park was only twelve
years old and that it had been bought
in its natural state and beautified by
Messrs. A. K. and A. H. Smiley,
Quakers, who own hotels in the Cats-
kill mountains of New York and close
about the first of October each
year and come out to this, their winter
home, and that many of the trees and
shrubs had been brought from for-
eign countries and blended with the
beautiful Southern California varieties
by the landscape gardener. We were
all commending on the grandeur and
the name, it being generally called
"Smiley Heights," when Hank

Adgate suggested that he would
"smile a little" if he owned it. We
did not throw him off the coach but
he was cautioned as to his future re-
marks. Continuing along winding
drives with numerous little palm
thatched booths at the most picture-
que points, we finally drew up to a
nice residence, mostly covered with
rose trees and clinging vines with
flowers, just beyond which and near a
small lake we met a nice pleasant
looking gentleman. Our driver stop-
ped by the lake and the party had
been told as we came in sight that it
was Mr. Smiley. He lifted his hat
and bowed. Simon Spellacy com-
plimented him on the beautiful surround-
ings, &c., &c. The old gent became
somewhat communicative and explained
to us that water and sunshine
would do wonders, but of course, said
nothing about the third ingredient,
money; and showed us where the
water came from, a canon across the
valley seven miles, and that at the
point where it started which looked
to us as way below our point of ob-
servation, was really 700 feet higher.
While we were standing a line of
coaches and park wagons had come
up behind us, compelling us to move
on. The affable Simon thanked him
and we were again winding around,
up and down the winding drive ways,
and at many points rather sharp turns.
Finally another nice vine covered
residence showed up and in front of
it a nice looking old gent (a twin
brother of the one we had so recently
met). Simon Spellacy, thinking the
old gent had taken a shorter cut than
we, addressed him. Duffield's derby.
"Glad to see you again, sir." Laugh-
ingly he replied, "that was my brother
you saw further up the hill."

Continuing the drive through the
England Heights, another beautiful
private park which leads out to High-
land avenue, and we are on our way
back to the town. A quick lunch
after a long wait in a crowded cafe
and we are aboard the cars.
It being very warm, all the seats
on the shady side of the car were
taken first, few realizing as we swung
around the loop they would be on the
sunny side again. A few miles from
Redlands we came to the foot-hills
and so close to the mountains that the
trees on their tops covered with snow
looked like solid images in white.
This range of which "Old Baldy" is
the highest, being about 12,000 feet,
breaks the cold of the east and north
and keeps this village an even tem-
perature. By clipping inclosed you
will see that a man froze to death this
week, only a few miles from this land
of sun-shine and summer. It is hard
to believe it, and a discussion of this
subject by our party caused a request
that this article be written.

Crossing our route of the morning
at San Bernardino, we passed to the
south and are down at Riverside.
Here we have but thirty minutes and
few take the drive. Others took to
the electric cars, the Superintendent
of the line assuring them that he
would return in ample time. Five of
our party wanted to see the famous
Magnolia avenue so badly that they
took the chances of getting left.
The car with a good left off at light-
ning speed and a few miles out col-
lided with another car that rounded
the corner quickly and a general
smash and shaken-up resulted.
Nothing serious to any of our party
except that Peter Spellacy lost a pair
of ten dollar eye-glasses, and Simon
was bruised somewhat. Several
persons were out badly by broken
glass and had to remain for repairs.
Our train waited twenty minutes
longer for the absent ones and many
of us visited the Riverside Fruit Pack-
ing house, a novelty to us. Seeing
the oranges emptied into a large in-
cline table and sorted, thence through
a large revolving brush, next elevated
and lowered to run down an incline
with grooves in the bottom which
sorted the oranges into sizes. On
each side were women and girls wrap-
ping them in tissue paper and packing
them in boxes. There is quite a
system in this, each one packing a
certain sized fruit, which admitted a
certain number to the box. Desiring
to buy some fruit to take on the train,
we were each given fourteen of the im-
mense oranges for two cents, (twenty-
five cents). They would have nearly
filled a half bushel measure. Our
trrolley party arrived just as the train
was about to start, and passing near
through much the same country, reach-
ing the Fullerton oil fields just at dark.

Delayed as we were in the early part
of the day, we missed seeing the last
thirty miles of our trip, one point of
interest being the Rand, McNally
ranch and beautiful depot of old mis-
sion style erected by them for the
Santa Fe railroad for the privilege of
naming the station La Mirada.
The balance of the trip was taken
up in story telling, and Spellacy, Duf-
field and the Adgates were so in-
teresting in one of Simon's Rocky
mountain hunting stories that they
did not know when the train arrived
here, and sat in the smoker until the
brakeman advised them that it was
not a rooming house. And they got
out, finding the balance of the party
gone and the train deserted.
Points of interest are visited gener-

ally every few days by our party. On
Saturday, the 10th, most of the same
party and including Samuel Collins,
went to Santa Monica, the seaport
town of Los Angeles, and witnessed
what they call, Spanish sports, mostly
feats of horsemanship and many of
them exciting. It was very warm,
seemed like a July day at home, and
in the afternoon we took a bath in the
surf. Ocean bathing being new to
some of the party, the dodging of the
breakers was quite a novelty.
So far as we know the whole Lima
colony here are in good health.
Respectfully,
ONE OF THE PARTY.

Building Warnings in Europe.

Russia took first place in 1900 as re-
gards turning out naval vessels, while
England and France dropped behind
considerably. Germany followed Rus-
sia, with Japan third and England
fourth. Russia's quota was two first-
class battle-ships, one first-class ar-
mored cruiser, eight destroyers and
three first-class battle-ships, one first-
class armored cruiser, one second-
class cruiser, two third-class cruisers
and three destroyers were launched.
As for England, only two first-class
armored cruisers, one third-class cru-
iser, four sloops and eighty destroyers
were commissioned.

To Avoid Taking Cold.

To avoid taking cold, keep the body
warmly clad in winter and wear han-
del undergarments. If you are strong
and active, sponge the body every
morning with cold water, and rub the
skin briskly with a coarse towel until a
glow is produced. If you feel chilly
after this performance, cold bathing of
the entire body should be avoided in
the morning. Before going out in the
morning, be sure to fortify the system
with a substantial breakfast. Never
take warm drinks and then immedi-
ately go out into the cold. Never go to
bed with cold or damp feet. Never
stand inactive in cold weather, espe-
cially after having taken exercise, and
always avoid standing on ice or snow,
or where the person is exposed to the
slightest draught. Never lean with
the back against anything that is cold.
Never sit by an open window in a car
after any kind of exercise. Should
your feet be wet immediately remove
your damp shoes and stockings after
entering the house, and do not try to
dry them while they are on your feet
by holding them near the fire. When
hoarse, speak as little as possible.
When going from a warm room into a
colder atmosphere, keep the mouth
closed and breathe through the nostrils
so that the air may be sufficiently
warm before it reaches the lungs.
Take plenty of outdoor exercise and
eat plain, nourishing food.

All druggists guarantee every bottle
of Chamberlain's Cough Remedy and
will refund the money to anyone who
is not satisfied after using two-thirds
of the contents. This is the best
remedy in the world for lagrippe,
coughs, colds, croup and whooping
cough and is pleasant and safe to take.
It prevents any tendency of a cold to
result in pneumonia. nov-44c

PADDED PAY-ROLL SCANDAL.

It is a very old practice to carry special employees not provided for by law upon the rolls of the two houses of congress and of state legislatures, the salaries being deftly hidden in deficiency bills or appropriations for emergency cases. As long as nobody complains this sort of legislative larceny is carried on without the plundered public being any the wiser.

Somewhere has been leaking about the padded pay-rolls of the house at Washington and a special investigating committee has been turning up some queer employees. It has been discovered, first of all, that there is an appointment trust in the house, which undertakes to divide the legal appointments among its members and provide for some extra ones in ways that don't look well when exposed. When agreement is impossible in any other way the legitimate places are farmed out by lot. This has resulted in one instance in a kid-gloved, soft-handed exquisite drawing for the position of attendant to a cloak room, the chief duties of which are cleaning suspenders, blacking boots and brushing clothes. The man who drew this prize has steadily drawn the salary without ever coming near the cloak room, and the salary of the colored man, who has done the work has been paid through an item in the deficiency bill.

A man who never handled a telephone key draws a salary as a telegrapher, while the telegrapher who does the work is employed as a teamster, and each has his salary pieced out by special appropriations contained in a deficiency bill. Clerks drawing regular salaries as department employees are paid for extra services during sessions, and committee clerks with defined duties and lawful salaries man-

age to get extra pay for special services, the aggregate of these various amounts reaching many thousands of dollars at each session.

The report of the special investigating committee, now in charge of this matter will check this sort of petty pilfering of the treasury for a little while. No permanent reform can be looked for, however, until a standing committee is created, composed of honest men, to be on guard all the time. Congressional and legislative combines to loot public treasuries for the benefit of political or personal henchmen exist at every session and can be depended on to get in their knavish work unless somebody is on the watch every day and all the year.

The Financial World, published in New York, was last week particularly severe in its criticism of the Ohio food commissioner because he got after Arbuckle coffee roasters. Said the World: "In no state of the Union having an official known as a pure food commissioner, or food and dairy commissioner, has such an office ever been made so ridiculous as in Ohio. Just how the food and dairy commissioner of that state is selected we do not at present know, nor does it matter very much; but we do know that more than one occupant of the office has succeeded in making himself a laughing stock to all sensible people, in and out of the state, by reason of the absurd, nonsensical and illegal interpretations which he had attempted to give to laws that in themselves are perfectly fair and reasonable. The present Ohio commissioner seems to be distinguished by nothing so much as by a complete ignorance of the true meaning and intent of the law which he is supposed to enforce, and the sooner he is gotten rid of the better will it be for the credit of the state and the comfort of its citizens."

Russia lost no time in hitting back at us for imposing a retaliatory duty on her sugar, and there isn't the slightest doubt as to which gets the worst of it. We collect about a cent a pound duty on Russian sugar, of which we buy \$900,000 a year, and Russia increases its tariff 50 percent on American steel and iron goods, of which she buys \$20,000,000 or more a year.

STAGE WHISPERS.

The Association of Vaudeville Managers controls 2,900 acts.

John Drew acted "Richard Carvel" 150 times in New York.

The receipts for the first week of the Rogers Brothers' engagement in Chicago were over \$14,000.

Maude Adams in "L'Aiglon" is said to have taken \$135,000 during the ten weeks' engagement in New York.

Maurice Barrymore says he will sue those newspapers and persons who have circulated reports that he has gone insane.

Augustus Thomas is writing a new play for Kirke La Shelle which will have its first presentation in New York at an early date.

Henry Miller is said to have met with every promise of success in his trial of Madeline Lucette Hylers' "Richard Savage."

At two London theaters books of the play are offered for sale. The plays are "Herod," by Stephen Phillips, and "The Wedding Guest," by J. M. Barrie.

Mr. Louis N. Parker is at work upon a new drama, of which Joan of Arc is to be the heroine. It is claimed that it will follow the facts of history very closely and be as nearly as possible a faithful representation of the men and manners of the time.

When Charles Hawtree, the eminent English actor, comes to America next season, under the management of Charles Frohman, he will bring a repertoire of new plays, among them "A Message from Mars," which was rejected here, but has been a great hit in London, and a new play by F. Anstey, entitled "The Man from Blankley's."

Germany in Line.

Berlin, Feb. 28.—Germany will endorse the proposition of the United States, Great Britain and France for the punishment of the guilty provincial officials, and will support the same in the conferences of the ministers of the powers in Peking. This statement is made on the best authority. It is regarded here also as practically certain that the proposition will be adopted unanimously. German officials emphasize the fact that the proposition is non-German, but that Germany is friendly to it.

Punitive Expeditions.

London, Feb. 28.—It is reported that the government has decided to dispatch strong punitive expeditions of Indian troops against the Ogaden Somalis. The expeditions will advance about the end of March from Berbera, on the Gulf of Aden.

Treasury Statement.

Washington, Feb. 28.—Statement of treasury balances in the general fund exclusive of the \$150,000,000 gold reserve in the division of redemption: Available cash balance, \$146,414,309; gold, \$79,449,882.

SOUTH AFRICAN WAR.

Botha Reported to Have Surrendered.

London, Feb. 28.—The Daily Chronicle, which has received a report it believes trustworthy, though it has no means of verification, that General Botha has surrendered to Lord Kitchener, says: "According to earlier information General Botha was to have been received at Lord Kitchener's camp about the end of the week, but if the foregoing report is correct, events have ripened with unexpected rapidity."

Bennett Burleigh wires to the Daily Telegraph from De Aar, Cape Colony, as follows: "The Orange river remains high. Our columns have tightened their grip upon Stryn, Dewet and Hertzog, near Petrusville, and our patrols have been engaged. I anticipate that a general action is about to be fought, and that the collision is likely to prove serious."

War Office Hopeful.

London, Feb. 28.—General French's most recent success, combined with the other advantages gained by the British forces in South Africa, have created a most hopeful feeling in the war office here. Lord Raglan, under-secretary for war, described it as being "the thin end of the wedge," and this also is the opinion of the military critics, who reiterate that while the war can not be expected to end with a sudden stroke, this constant capturing of men, guns and supplies and horses means that the operations will soon be reduced to a drab stage.

Victims of the Thug.

Denver, Feb. 28.—Mrs. Josephine Unterhahner, one of the three women struck down by a heavy blow on the head last Friday night on Capitol Hill, is dead in St. Joseph's hospital. One of the others, Mrs. Mary Short, died on Saturday. The third victim of the Capitol Hill thug, Miss Emma Johnson, may recover. Albert L. Cover is charged with the murder of Mrs. Short, and is suspected of being the highwayman who has attacked many women in this city the past year.

Marine Disaster.

London, Feb. 28.—The British steamer Chamois collided near Dewar Lightship, three miles east of Yarmouth, with a steamer whose name has not yet been ascertained in London. The unidentified steamer sank and a boat which put off from her was swamped. A few of her crew scrambled on board the Chamois. The Chamois has not yet been heard from and it is feared that she may also have foundered, which would make a total of probably 50 lives lost.

Killed His Stepfather.

Columbus, Ind., Feb. 28.—George Jewett, 20, brained his stepfather, Austin Malloy, with an ax. Malloy, who is said to have been of a quarrelsome disposition, on going to his home, started trouble with his family. The young stepson objected to Malloy's treatment, and the older man assaulted him. The boy escaped from him. He grabbed an ax, and when his stepfather renewed the attack struck him on the head, literally dashing his brains out.

Verdict in Rio Disaster.

San Francisco, Feb. 28.—The coroner's jury held an inquest over the 11 bodies recovered from the wreck of the steamer Rio de Janeiro, and returned a verdict. The jury charges Captain Ward, who was drowned, and Pilot Jordan with criminal negligence. The Pacific Mail Steamship company is censured for having had a Chinese crew on the steamer. Second Officer Graham Coughlin is commended for heroic conduct in saving lives.

Ohio Boys Too Old.

Washington, Feb. 28.—Word was received from the Twenty-third Ohio regiment, which the president commanded in the civil war, that the survivors are too old to take the long journey to Washington and endure the fatigues of an inaugural march. This left their post of honor in the parade vacant and the president and General Greene are willing that it should be filled by a representative body of veterans from the District posts.

Turf Winners.

At Tenterden—Straight Shot, Legal Maxima, Advance Guard, Justice, Vain, Rolling Boer.

At Oakland—Paradise, Tame Irishman, Rover, Lena, Mayday, Alleviate.

At New Orleans—Crystaline, Gen. McGruder, Dick Furber, Lena A., Sallie J., Oussor.

A very happy, inspiring and beneficial evening was spent by those who attended the reception given to the new members who became identified with the church during the recent revival. The edifying function was especially in honor of the 164 persons

who of late became members of the church. The attendance was large, and the loyal Christian hospitality being highly enjoyed. An appropriate program was rendered, refreshments served, and the delightful social belle enjoyed until a late hour.

The other evening Mrs. Zebulon Ranck, of South Lima, was the victim of a bold tramp's insolence. She was alone when there was a knock at the door which when opened admitted a burly vagrant who commenced the frightened woman to prepare his supper. While complying with his demand, the presumptuous scoundrel sat with his feet in the oven, assuming no air of great importance, giving an unusual order as to the preparation of his meal. Unfortunately no one arrived until the bold intruder had patched a relishable meal, served under rules, to his order, and departed.

We desire at this time to sincerely thank our neighbors and friends who so kindly assisted and consoled us in the illness and death of our beloved mother, and sister; the late Mrs. Bridget Sullivan. Also, to thank the donors of the beautiful floral offerings.

CONTAGION AND INFECTION.

La Grippe is Infectious but Not Contagious.

Contagious diseases are communicated from one person to another; infectious diseases are conveyed through the air.

Small pox is a contagious disease; La Grippe is infectious. When an epidemic of the grip is prevailing it is in the air we breathe and no one is safe.

The only safeguard is to keep the system in the highest possible condition of health and on the first appearance of a cold in the head to use some safe antiseptic like Stuart's Catarrh Tablets freely, a tablet taken every hour or two for a couple of days will be sufficient to break up the attack.

La Grippe attacks the weakest part of the system, it may be the lungs, heart, liver, stomach or kidneys but whatever it finally locates it almost invariably starts with cold in the head and throat or in the other words, the disease at the beginning is acute catarrh.

This is the reason Stuart's Catarrh Tablets have been so successful in breaking up attacks of grip. The antiseptic properties of the remedy destroy the germs before the whole system is thoroughly infected.

Dr. Anderson says: Stuart's Catarrh Tablets being free from cocaine and harmful drugs should be freely used at this time of year on the first appearance of grip symptoms.

They check the excessive catarrh secretions, stop the fever and prevent pneumonia.

They are composed of antiseptics and may be used by little children as freely as by adults and with great benefit.

TUB TRUTHS.

A DROP of ink will color a whole glass of water. It is an inch of yeast which makes a pan of bread rise, and a single cake of soap containing unabsorbed alkali can ruin a hundred times its cost in laces and fine embroidery. After all, is it wise to take such risks with common soap? Of course you can get along without Ivory Soap. So can a wagon without axle grease—but it goes hard.

HOW

The Syrian Came to Grief.

The Other Side

Offered by Defendants' Counsel,

Who Takes the Stand That Young Hutchinson Was First Assaulted.

Maurice Thomas' Story Substantiates the Defendant—The Peddler Put on the Stand.

A very different light from the one the reading public is familiar with was thrown upon the story of the alleged assault committed last January on the Syrian peddler, when court convened this morning and Fred Hutchinson was brought up for trial.

The early history of the assault has been given from the standpoint of the state, but this morning young Hutchinson came into court with able counsel to defend him and the other side of what was believed to be an unprovoked attack upon an inoffensive Syrian blossoms into drunkenness which prompted a vengeance which a sober spirit would perhaps have modified.

Hutchinson is a husky young fellow, and has the appearance of one who would be able to take care of himself in any sort of melee, but he doesn't wear the attitude of a bully, neither does he look like a man who would willfully do a criminal act. He unconsciously shouldered a bundle of trouble to which the heavy packs of the peddler are but a feather-weight, and while the law may hold him guilty he has at least offered a defense which shows there was no criminal intent.

When court convened this morning Prosecutor Klinger announced that the case of the state against Fred Hutchinson was ready for trial and later Attorney Leland appeared to defend the prisoner. There were only a few witnesses called, as the struggle on the highway was witnessed by but a few people. Maurice Thomas, the old farmer, who lives on the Gomer road, and who was at first held as an accomplice of Hutchinson was called and from him was extracted the testimony which substantially upheld the stand taken by the defense.

The meeting with the peddler occurred on the 16th of January last as Thomas and Hutchinson were returning from Lima. The former was considerably under the influence of liquor. They were stopped in the middle of the road by the peddler, who insisted upon showing his wares, and Hutchinson became at once interested in a mouth harp. The Syrian was able to make himself understood only by signs and there seems to have been a mistake in the price asked for the instrument. While Hutchinson was engaged in playing it, the Syrian is said to have grabbed for it and in the struggle for possession struck a blow with something in his hand that glistened. He missed Hutchinson, who was standing between the wheels of the buggy, and hit one of the standards of the buggy top, scraping off several inches of the enamel. Hutchinson struck back and landed the peddler in the ditch. The latter then put his hand back into his hip pocket, and Mr. Thomas, fearing that he was going to shoot, struck the horse with a whip and drove up the road for a distance of 200 yards. The peddler turned and ran in the opposite direction yelling at the top of his voice and young Hutchinson, now thoroughly enraged, proceeded to kick the open bundles about the road. Mr. Roberts and his son drove by at that period and the peddler stopped them, but was unable to make himself understood. When they reached the spot where Hutchinson stood monarch of all he surveyed they learned the particulars and then advised Mr. Thomas to get out of it or he would get himself in trouble. The latter did so without further warning.

Hutchinson then took a wiser course, gathered up the stray trinkets, made them up into a bundle and walked to Mr. Thomas' farm, where he was employed. The peddler had in the meantime started for Lima, where he arrived and made his complaint to the police.

Hutchinson first threw his bundle into the brush near the house, but later told Mr. Thomas about it and the latter demanded its removal from the premises, explaining that they would surely be arrested and held responsible if the goods were found in

their possession. Hutchinson then secreted the stuff in the haymow. When the sheriff arrived, Hutchinson at first declared he had nothing in his possession, but when told he must go to jail, asked permission to speak to Mr. Thomas. The latter advised him that if he still knew where the goods were to turn them over to the sheriff, and the young man did so. Thus the story of the assault was given to the jury by the defendant's attorney, and supported by Mr. Thomas, who was present at the time it occurred.

It was an interesting moment when the Syrian himself took the stand, and there was but one man present who was able to understand and interpret the answers of the prosecuting witness. W. D. Maloley had been called into the case by the state for that purpose, and through him the witness' statements were made intelligible. The peddler took the defensive in the highway assault, denying the charge of having first started the trouble and gave the impression that he was made a victim of the other man's felonious intent. He also declared that Hutchinson had not only stolen or ruined a part of the goods he carried, but had also robbed him of some \$60.00 in money. He was still on the stand at the hour of the noon recess and when court again convened was called upon to conclude his statements.

IN MEMORIAM.

Anthony Winegardner, who died at his home in Harrod, Ohio, Thursday, February 21st, 1901, was an old, substantial and honored citizen of Allen county.

A brief sketch of his life and family history will be appreciated by his numerous relatives and friends.

The deceased was born in Perry county, Ohio, January 13th, 1831, and died at Harrod, Allen county, Ohio, February 21st, 1901, aged 70 years 1 month and 8 days.

He was descended from old colonial ancestors, who settled in the Shenandoah valley, of Virginia, in colonial times. His grandfather accompanied by his family, the father of the deceased then a boy, being one of the number, left Virginia and came to Ohio, and were of the number of early settlers of this state. They located in Fairfield county, where many of the family continued to reside for many years. Abraham Winegardner, the father of Anthony, on reaching manhood, married Miss Mary Staumbaugh, of Perry county and settled there. Here their son Anthony was born and reared.

On the 24 day of December, 1852 he was married to Miss Elizabeth Ans-pach, who was born in Perry county, June 29th, 1833. She preceded him to the spirit world on the 17th day of May, 1894, aged 59 years 10 months and 18 days.

A few years after his marriage, he removed to Allen county, and settled in the vicinity in which he has continued to reside. Here he reared his family, which consisted of six children, three sons and three daughters. One of the daughters preceded him to the spirit world. The children yet living are, Mary A., George F., William A., Lewis J., and Emma O., all residing in Harrod and vicinity. He leaves, also, 21 grand children and two great grand children. He was an industrious farmer and a successful man in business. He also left his children well provided for, all having comfortable homes. They remember him as a kind father and a judicious adviser. He was a Democrat of the old school, and had in his possession at the time of his death, copies of the Democratic tickets for President in the fifties.

In early life he was received into the German Reformed church, but soon transferred his membership to the Evangelical Lutheran church and continued to be a faithful and consistent member of the same until death. In his death, the community, the family and the church lose a good and useful member.

The funeral services were held at Zion Evangelical Lutheran church on Saturday, the 23d day of February, and conducted by his pastor, Rev. J. H. Hutton. It was largely attended.

SITUATION

Is Far From Pleasing
to the RailroadsWho Look for a Congestion
in July Traffic.The G. A. R. Encampment and the
Pan American Exposition
Means Extraordinary
Facilities.

Chicago east-bound railroads are sorry that the next encampment of the G. A. R. will be held in their territory. They feel that their interests would be better served if the old soldiers had not decided to switch from Denver to Cleveland, and the nearer the time for the opening of the Pan-American exposition approaches the more they wish the reunion was not to be held in the Ohio city.

The roads figure that the encampment will carry with it many conditions which will work injury to the regular exposition traffic, which will be more profitable to handle than that caused by the movement of the old soldiers and their families and friends.

The roads look for the biggest rush of exposition business about the time the encampment traffic becomes the order of things. The question of adequate equipment already is being considered seriously. That the encampment will call for a great many coaches is regarded as certain in view of the general belief that the number of persons who will take advantage of the encampment rates to go to Buffalo will be very large.

Passenger men say that the coming summer will carry with it the reputation of having been the banner excursion season of all time. Between July 1st and 31st several of the biggest meetings of the year will be held, among them being the National Educational Association at Detroit, Christian Endeavor at Cincinnati, Knights Templar triennial convocation at Louisville, and the Epworth League at San Francisco.

KILLED ON STREET CROSSING.
Westbound fast train No. 21, on the

THE IDLER.

M. P. Colt, the well known oil operator, today received from a friend at Tokio, Japan, a letter that went down with the ill-fated Pacific mailsteamer, Rio de Janeiro, just outside the Golden Gate on last Friday. A number of the mail sacks were rescued by the coast wreckers and Mr. Colt's letter was among those saved. The missive bears every evidence of having been water-soaked and was resealed by the postoffice department at San Francisco.

Killing Locomotive from Canal.
A locomotive recently run off a bridge over the St. Quentin canal, near Paris, and fell into the water. It was found impossible to raise the locomotive, as the space was so confined, so divers passed chains around it, and these were attached to beams. The load was then raised by means of screw supports, blocking being introduced as the work proceeded to guard against a possible breakdown. The locomotive was lifted fourteen feet, so that a sand-laden barge could be run underneath. The engine was then lowered and taken away. Five days were consumed in doing the work.

Railroad News.

After long weeks of weary waiting it is at length announced that the Ohio Central management has commenced to operate the Columbus Northwestern road extending between Peoria and St. Marys, Ohio.

The property was purchased by the Ohio Central two or three months ago but matters looking to the operation of the road by the new owners were long delayed by red tape and the difficulty of straightening out the construction affairs of the road.

The history of the road is a variegated one. The construction of the road was undertaken several years ago by Haskell and Strang, promoters, and after many ups and downs was completed and for a time operated as the Columbus division of the Detroit and Lima Northern.

After a brief but brilliant tenure in this capacity the D. & L. N. people let go and the road for some time has been operated in a half-hearted, spasmodic manner under its construction name of the Columbus Northwestern. The St. Marys extension between Wapakoneta and St. Marys was recently completed, and beginning today, regular trains between St. Marys and Peoria are now in service.

A C. H. & D. Case.
Arguments were made in the Ohio Supreme court yesterday in the case of the C. H. & D. R. R. vs. Samuel N. Aller. Defendant recovered \$7,000 damages in the lower courts on account of personal injuries received by falling off a platform at Leipsic Junction. The Supreme court reversed the judgment of Lucas county courts in this case and granted a rehearing. It has been contended that Aller was walking on the freight platform and thereby incurred risk by his own negligence. Aller's attorneys submitted evidence to show that Aller was walking on the regular platform when he fell off and broke his hip bone. The defendant is a physician at Ottawa.

MILLION

Dollars and More is Involved in the Valuation Increases

Imposed Upon This City.

The Local Appraisers Had the Valuation Up to Nearly Half a Million and the State Board of Equalization Did the Rest.

The subject of the increase in the valuation of Lima property made by the State Board of Equalization is the one prevailing topic of conversation among all who are interested in any degree in real estate in this city and who would consequently be affected by an increase of taxes upon such property.

A careful analysis of the situation shows that if the proposed increase made by the State board should be allowed to remain, the increase in the valuation of Lima's real estate over that upon which people paid tax in 1900 would exceed one million dollars—in exact figures it will be \$1,073,110. The excess tax which would be paid on this increase will amount annually to the tidy sum of \$30,187, or in the period of ten years during which this appraisement will continue will amount to \$301,880, an enormous sum, when it is considered that it would all be excess tax beyond that paid on our real estate in the past decade.

The cause which led up to the increase in Lima is not yet clearly known. It is not at all strange that an increase should have been made in the villages of Elida, Cairo and Harrod, for in each of those places the local appraisers had reduced the valuations to an extent that the increases made in them does not much more than restore them to the valuation prior to the appraisement of 1900.

But with Lima it is different. Baxter Trevor, who was appraiser in the Fifth and Sixth wards, so largely increased valuations in many instances in his territory that when it was equalized by the local board, and that board had made its additions, the total valuations were \$413,762 more than in the preceding decade.

The meeting of the board of trade tonight will consider the situation in all its phases, and will take such action as seems most expedient to attempt to secure a reduction of the excessive valuation under which this city is suffering in the present condition of affairs.

The editor of the Gazette this morning says that because of his suggestion to that effect a meeting of the board of trade was called to consider the tax increase in valuation. As a matter of fact on Monday evening when Editor Campbell was getting his first information from the columns of the TIMES-DEMOCRAT that an increase had been made, and lamenting that his little paper has been so badly scooped, some of the enterprising taxpayers, who had read in the TIMES-DEMOCRAT of the increase made by the state board, had arranged to have a meeting of the board of trade called to take action on the matter. This was thirty-six hours before Editor Campbell recovered from his trance sufficiently to even tell his readers that an increase had been made by the state board, which he did by copying bodily the facts and figures contained in the TIMES-DEMOCRAT's second article on the subject.

THE STAGE.

"Darkest Russia" drew a packed house last night and the Davidson company made the most of this thrilling drama. This company is without doubt one of the best that has ever played here at popular prices and it is good to see that the public appreciate it. In addition to their good work last night, some fine scenery and costumes were displayed and the specialties made their usual hit. Mr. Kennedy has become a great favorite and receives a welcome at each performance that approaches an ovation. Tonight the laughable comedy, "The Sultan's Daughters" will be the bill.
